

MD. SOHAIL KHAN

Career Objective

I'm a full-stack developer focused on building production-ready applications using the MERN stack and Next.js. I have hands-on experience with authentication systems, protected routing, MongoDB integration, and cloud deployment. I'm looking for an opportunity where I can contribute to real products, improve my backend fundamentals, and grow by solving practical engineering problems. I value writing clean, maintainable code and understanding how systems work end to end. My goal is to continuously improve as a developer while delivering reliable and scalable solutions.

Work Experience

Web Developer Intern, Sane Infotech, Guwahati

August 2024 – February 2025

Worked as a Web Developer Intern at Sane Infotech Guwahati, contributing to a SaaS product using the MERN stack by building responsive React components and supporting Node.js/Express backend features.

Project Trainee (Cyber Security Intern), NIELIT, Guwahati

June 2024 – July 2025

Worked as a Cyber Security Intern at NIELIT Guwahati, gaining hands-on experience in network security, vulnerability assessment, and system risk monitoring while learning essential cybersecurity best practices.

Projects

Linktree-Clone: Full Stack SaaS Link Management Platform.

Link management platform with authentication, dynamic handles, and cloud image uploads (Next.js, MongoDB).

Live: <https://linktree-ruby-two.vercel.app>

GitHub: https://github.com/Developer-Sohail786/linktree_

URL-Shortener – Full Stack SaaS URL Management Platform.

URL shortening app with authentication, protected dashboards, and click tracking (Next.js, MongoDB).

Live: <https://url-shortener-app-topaz.vercel.app>

GitHub: <https://github.com/Developer-Sohail786/url-shortener-app>

Web Application Firewall (WAF) + JWT Authentication

Custom WAF that blocks SQL injection and XSS with JWT authentication (React, Node.js, Express, MongoDB).

Live: <https://waf-jwt-frontend.vercel.app>

GitHub: <https://github.com/Developer-Sohail786/WAF-JWT>
